Examining the Relationship Between PTSD Symptomatology and Cigarette Smoking Among Ohio Army National Guard Soldiers

[Article](#)

[Full-text available](#)

January 2019

Hannah E. Bergman · Philip K Chan · Andrew A. Cooper · [...] · Norah Feeny

Evidence suggests that posttraumatic stress disorder (PTSD) increases risk for cigarette smoking in civilian and military populations. There is limited evidence about this relationship among National Guard, a group that may be at higher risk of behavioral health concerns compared to Active Component. The...
