\section*{Outline}

\begin{tabular}{ll}
10.1 Introduction & 268 \\
10.2 Brain Tumor Overview & 268 \\
\hspace{0.5cm} 10.2.1 Primary Brain Tumors & 270 \\
\hspace{0.5cm} 10.2.2 Secondary Brain Tumors & 270 \\
10.3 The Blood–Brain Barrier and Its Rigidity & 270 \\
\hspace{0.5cm} 10.3.1 Permeation Potential of the Blood–Brain Barrier for CNS Drug Delivery & 271 \\
\hspace{0.5cm} 10.3.2 Receptor-Mediated Transport Across the Blood–Brain Barrier & 272 \\
10.4 Development of Resistance Toward Transportation of Chemotherapeutics to the Brain & 274 \\
10.5 Nanotechnology in Brain Tumors & 275 \\
10.6 Dendrimers as a Potential Nanotherapeutic Approach & 276 \\
\hspace{0.5cm} 10.6.1 Methods of Synthesis of Highly Branched Dendrimers & 277 \\
\hspace{0.5cm} 10.6.2 Characteristics of Dendritic Structures & 280 \\
10.7 Dendrimer-Based Chemotherapeutic Approach in Brain Tumors & 282 \\
\hspace{0.5cm} 10.7.1 Dendrimer-Based Gene Therapy Approach in Brain Tumor Treatment & 283 \\
10.8 Conclusion & 294 \\
References & 294 \\
Further Reading & 305
